

PRESSURIZED IRRIGATION SYSTEM CONNECTION AGREEMENT

This Connection Agreement is entered into by and between The City of American Fork, a municipal corporation, herein after referred to as "City" and _____, herein after referred to as "Water-user."

1. Commitment for Service: The City hereby commits to deliver and make available to the Water-user untreated water from the system owned and operated by the City at the point identified as the delivery point. The water shall be for utilization by the Water-user for non-potable purpose upon, and only upon, the property owned or resided in by the Water-user. The City is obligated to maintain the pressurized irrigation system ("System") from the primary lateral connection in the street through the primary pressurized irrigation box located on the property.
2. Water Quality: Water-user hereby acknowledges that the water being delivered through the System has not had any treatment or chemical modification with the intent of using the water for potable or consumptive use. Water-user hereby acknowledges that it is the obligation and responsibility of the Water-user to ensure that the water herein delivered is not used for, or in any way intended to be used for, consumptive or potable use by the Water-user.
3. Water-User's maintenance Obligation: Water-user shall keep their facilities related to delivering the water onto their own property in good repair and protected from the elements at their own expense. The user shall not excavate or otherwise attempt to enter upon the city streets, parking strips, sidewalks, or other public right-of-way for the purpose of laying, removing or repairing any service pipe or apparatus related to the System.
4. Maintenance Access: The City shall at all reasonable times have access to the property supplied with water from the System for the purpose of examining the facilities and apparatus to ascertain the water use, quantity, manner of use, or any related information.
5. Water Rates: Water-user hereby acknowledges that the rate schedule is subject to adjustment, modification and change by the City in accordance with its policies to ensure the integrity, maintenance, operation and replacement of the System.
6. Unauthorized Use: Water-user hereby agrees and understands that he is prohibited from allowing the water delivered to the Water-user to be available to any other person or premises or any other unauthorized uses beyond the non-potable uses on the Water-user's property.
7. Delinquent Payment/Termination of Service: Water-user hereby agrees and understands that failure to pay for the water use charges as specified in the rate schedule subjects the Water-user to termination of service by the City. Further, any attempt to utilize the system after such termination shall be deemed to be a violation of American Fork City ordinance and only upon payment in full of all unpaid charges and reconnection fee shall the water service be resumed. Moreover, Water-user agrees the City may utilize any and all methods of collection for delinquent accounts pursuant to ordinance.
8. Restriction on Use: Water-user hereby agrees and understands that the City has the authority to determine the extent of use, the quantity of use, and the scheduling of use of the System. In the

event it is determined that the water usage needs to be scheduled, restricted or otherwise limited in order to meet the demands from all water users due to the demands on the System caused by drought, mechanical failure or other reasons, Water-user hereby agrees and consents to abide by such restriction and limitations.

9. Prohibitions:

- Water-user shall not connect any part of the Secondary Irrigation System to any part of the culinary water system.
- Water-user shall not waste water or allow water to be wasted by improperly maintained facilities, (valves, joints or pipes.) Water-user hereby agrees not to cause waste of water by allowing unreasonable water flow into neighboring yards, property or streets. Flood irrigation from pressurized irrigation lines is prohibited, unless authorized by the City pursuant to the terms of the agreement with the American Fork Irrigation Company. The Water-user shall not allow waste water from flood irrigation to flow onto the City streets.
- Water-user shall not turn on or allow the water to be turned on or used without authorization from the American Fork City Water Superintendent.
- Water-user shall not destroy, deface, injure, or interfere with the operation of any part, pipe, fixture, appliance or appurtenance of the System.
- Water-user shall not place or introduce into the System or any source of water utilized as part of the System, any matter, substance, chemical, or compound without express authorization from the American Fork City Water Superintendent.
- Water-user shall not permit any person from other premises, or any unauthorized persons, to use or obtain water from Water-user's connection to the System.
- Once connected to the System, Water-user cannot disconnect without also disconnecting from the culinary water system as well.

10. Penalty: Water-user further acknowledges failure to abide by the terms of this Agreement could result in civil or criminal penalties pursuant to ordinance.

This Agreement is executed this _____ day of _____, 200_____.
